6. Loom

For Recording *Feedback*

With Loom you can record your screen and instantly get a link to share with anyone. It's the fastest and easiest way to screen capture and stay connected with your team.

The screenshot shows the Loom Chrome extension page. At the top, there's the Loom logo (a sun-like icon) followed by the text "Loom – Screen Recorder & Screen Capture". To the right is a blue button that says "Add to Chrome". Below this, there's a row of links: "loom.com", "Featured", "4.6 ★ (10.2K ratings)", and "Share". Underneath are three tags: "Extension", "Communication", and "8,000,000 users". The main content area features two large images. The left image is a screenshot of the Loom website with the headline "Bringing video messaging to work" and statistics: "2015 founded", "\$45m in funding", "7m users", and "90k funding". The right image is a promotional graphic with the text "Record your screen with Loom." and "Record your screen, share your thoughts, and get things done faster with async video." Below these images is a row of six small thumbnail images showing various use cases for the extension.

7. Site Palette

For Color *Palette* Generation

Site Palette generates beautiful color palettes from any website. You can export them to Figma, Sketch, or Adobe, making it a powerful tool for color inspiration.

The screenshot shows the Chrome Web Store page for the 'Site Palette' extension. At the top left is the extension's logo, a 2x2 grid of colored squares (purple, blue, green, yellow). To its right is the title 'Site Palette'. Further right is a blue button that says 'Add to Chrome'. Below the title, there is a link to 'palette.site', a 'Featured' badge, a rating of '4.1 ★ (363 ratings)', and a 'Share' button. Underneath, three tags are displayed: 'Extension', 'Developer Tools', and '90,000 users'. The main content area features two large preview cards. The left card shows the extension's interface with a play button overlay and a 'Color cube' section displaying five color swatches with their hex codes: #383d3d, #6059f7, #6592fe, #36c3fe, and #8cd1ff. The right card has a blue background with the text 'Get the essential colours from any website' and shows a preview of the extension's UI with a 'Create' button and a 'Share' button. Below these cards is a row of six small thumbnail images showing various uses of the extension. At the bottom of the page, there is a profile picture of a man, the name 'Raju Ahamed', and the title 'UI/UX Designer'. To the right of this is a white button with the text 'Follow for More' and a green plus icon.

10. Imageye

For Bulk *Image Downloading*

Imageye scans any webpage and pulls out every image, letting you download them in bulk. Great for collecting references, moodboard assets, or design inspiration.

The screenshot shows the Chrome Web Store page for the 'Image downloader - Imageye' extension. At the top, there's a purple icon with a white download arrow and the title 'Image downloader - Imageye'. To the right is a blue 'Add to Chrome' button. Below the title, it shows the URL 'www.imageye.net', a 'Featured' badge, a 4.9-star rating from 12.1K users, and a 'Share' link. There are two category tags: 'Extension' and 'Art & Design'. A note states 'Follows recommended practices for Chrome extensions. Learn more.' The main visual area contains two promotional cards. The left card, on a purple gradient, shows a laptop with the text 'Image downloader by Imageye' and 'Trusted by millions to download images from any website'. The right card, on a white background, shows a laptop displaying a social media page with the text 'Bulk download images' and 'scrape images from any website including Instagram, Facebook, Pinterest, Twitter, ...'. At the bottom, there's a row of six small thumbnail images showing various features and interfaces of the extension.
